About the Rally:

The Great Western Bicycle Rally is held every May on Memorial Day weekend at the San Luis Obispo Event Center in the scenic setting of Paso Robles, CA. The Rally is a unique event in that it offers a variety of activities and rides for all levels of cyclists. Rally participants may choose rides ranging from 10 miles to 100 miles each day. Included in the Rally Fee are time trial and hill climb competitions, a kids bicycle roadeo and family activities, a wine and cheese social and "Best of Bike Show" competition, a 2-day vendor marketplace, bike swap and numerous other activities and services. For those that do not wish to participate the entire weekend one-day rides are available that will include road support and rest stops. These are "Women's Only Ride" called Velo de Femme on Saturday and on Sunday, The Great Western Century and Metric Century

Families, bicycle clubs, boy scouts, groups of friends and individual cyclists come each year to participate in the Rally activities and to enjoy scenic cycling on miles of country roads through ranchland, vineyards amid countless native oaks. They come primarily from California, and because Paso Robles is half way between the San Francisco Bay Area and Los Angeles; the Rally is able to draw participants from both areas. Approximately 1500 - 1700 cyclists will be attending the 2009 event.

Why Participate?

The Rally provides all ages and abilities of cyclists the opportunity to participate in a wide variety of rides and activities that suits their desires and abilities whether it is recreational or competitive. Because it is a three day event The Rally can provide more exposure and opportunities for our sponsors to tell their message to a varied audience whether it is through special events, classes and meetings during the Rally, or product sales and samples or signage. Rally marketing is done through strong relationships with bicycle clubs, marketing at other popular bicycle events, distribution of brochures through bicycle shops and Internet marketing.
